From 9-13 November 2010, the Central Metallurgical Research and Development Institute, Cairo-Egypt will organize the ninth International Symposium on Science and Processing of Cast Iron (SPCI-9). This symposium will be in line with others previously held in:

SPCI-9 will be as usual an excellent arena where scientists, metallurgists, producers as well as applicants can discuss the state-of-art of cast iron science and processing and exchange ideas and experience related to cast iron industry. More than 100 paper from 30 countries will be discussed during the oral and poster sessions of the Symposium.

The Symposium will be held in the STEIGENBERGER NILE PALACE HOTEL (www.luxor.steigenberger.com), which lies in the heart of the historical city of Luxor. The organizers offer a unique opportunity to visit the historical sites in Luxor and Aswan during post Symposium touristic program.
